

# FRESH WATER SUSTAINABILITY IS IN OUR HANDS!

On June 11th, 2010, Leadership BC Central Vancouver Island supported by the Vancouver Island Economic Alliance (VIEA), and BC Hydro are hosting a "fresh, entertaining and engaging" community dialogue on Fresh Water Sustainability at the Vancouver Island University. The key theme of the day is "What can we do together for Vancouver Island to become a flagship model of fresh water sustainability?" The outcomes of the day are to identify issues, potential solutions and inspire action. A work plan will also be drafted by VIEA to carry forward new initiatives.

## AGENDA

- |                       |  |
|-----------------------|--|
| <b>9:00-9:10am</b>    | Welcome - Vancouver Island - a flagship model.   |
